WHY I WANT TO BE HERE

I have become familiar with Lemonade Stand through a friend and current employee, and have seen how the company and it's culture has positively impacted his life. Lemonade Stand's view on improving the digital marketing landscape by making the experience as enjoyable for the client as possible is very encouraging. The positive values that the company tries to instill in its employees really make it seem like a great place to get rooted and invested in. I would be very interested in using my skill set as web developer to benefit the Lemonade Stand team.

HOW CAN I ADD VALUE

I have spent the past year training under a few web developers becoming proficient in both HTML and CSS, as well as becoming knowledgeable in Javascript and Wordpress. I also have an understanding of the main principles behind the ADA guidelines and DNS records. I have a passion for technology and more importantly, creating great looking and functional websites. I'm a quick learner, a hard worker, and I'm very excited to improve my skills as a Web Developer in any ways I can.

WHO I KNOW

Jared Briones, SEO Specialist -
(661) 860-9518
